

## Steven R. Pease Award

Steven graduated summa cum laude from the University of California at Los Angeles, with a BA. in Geography in 1969. A Woodrow Wilson Fellow, and he won a Four-Year Prize Fellowship at the University of Wisconsin-Milwaukee, which he

entered in the fall of 1969, as well as a summer internship in 1971 at the National Center for Atmospheric Research. In those years, in addition to pursuing graduate studies he worked as an announcer and manager for radio station WFMR, Milwaukee and as a substitute broadcast meteorologist for three Milwaukee radio stations.

At SFSU, Steven was responsible for teaching seven courses, served as a graduate adviser for five years and supervised numerous masters theses. His research activity focused on the analysis

of atmospheric conditions with remote sensing and satellite imagery. After completing a yearlong solar-energy mapping project for the California Energy Commission, he presented the results of that work at the Jet Propulsion Lab at Pasadena, at the Berkeley Lawrence Lab, and in February 1981 at a workshop sponsored by NOAA and the international Solar Energy Society in Washington D.C. In June 1984, Steven presented a paper at the AAAS, Pacific Division meeting in San Francisco on coastal insolation patterns. In October 1984, he presented a paper at the International Remote Sensing Symposium in Paris, and was secretary of the American Meteorological Society chapter in San Francisco.

### Criteria & Eligibility:

- Undergraduate major or classified graduate standing in Geography.
- Must have completed at least 10 units in Geography at SFSU with a GPS of 3.25 or better.

### How to apply:

- Submit an essay of approximately 500 words discussing your interest in geography or geographic information science. This essay should include some indication present activities and future plans.
- Submit to <https://sfsu.academicworks.com>, including a current unofficial SFSU transcript.
- Your cover letter should include your full name, SFSU ID number, address, phone and email address.

## David E. Johnson Memorial Scholarship

Born in Los Angeles, California, on August 12, 1960, David E. Johnson was the fourth of seven siblings. He attended Manual Arts High School in L.A. and graduated with a B.A. in Geography from San Francisco State University in May, 1986. Even as a young man, David was fascinated by transportation and movement systems. He developed a love for cartography, studying and collecting maps, and jokingly referred to himself as "Map Man." In his professional life, David was an environmental and transportation planner with over 20 years of experience working on highway, rail and bridge projects in the San Francisco Bay Area. He was always concerned about environmental impact and environmental justice.

David's family has established the David E. Johnson Memorial Scholarship to help support a baccalaureate or graduate student in Geography at SFSU. Recipients will be chosen annually by Geography Department faculty members in accordance with the criteria and procedures listed below.

### Criteria & Eligibility:

- Declared undergraduate major or classified graduate standing in Geography or Environmental Science. Students active in the African-American community are encouraged to apply.
- SF State GPA of 3.0 or higher, and enrolled in at least 6 units of Geog

### How to Apply:

- Submit application to <https://sfsu.academicworks.com> a statement of approximately 500 words discussing your interest in environmental justice/urban environmental planning. Include a 1-2 paragraph statement of financial need. Include a current transcript and cover letter with name, SFSU ID, address, phone, and email.
