

Andrew J. Oliphant

Curriculum Vitae

Professor

Department of Geography & Environment
San Francisco State University
San Francisco, CA 94132

Ph: (415) 405 2143
Fax: (415) 338 6243
e-mail: andrew@sfu.edu

Education

- | | | |
|------|--------------------|--|
| 2001 | Ph.D. | Department of Geography, University of Canterbury |
| 1996 | M.S. (First Class) | Department of Geography, University of Canterbury |
| 1994 | B.A. | Department of Geography, Massey University |
| 1989 | B.A. | English Literature, Maori Language, University of Canterbury |

Professional Experience

- | | |
|------------|--|
| 2011 - | Professor
Department of Geography & Environment
San Francisco State University, San Francisco, California |
| 2007-2011 | Associate Professor
Department of Geography and Human Environmental Studies
San Francisco State University, San Francisco, California |
| 2002-2007 | Assistant Professor (Tenure Track)
Department of Geography and Human Environmental Studies
San Francisco State University, San Francisco, California |
| 2001- 2012 | Adjunct Faculty, Summer Field Course, Montana
Environmental Science Program
Indiana University, Bloomington, Indiana |
| 2000-2002 | Postdoctoral Fellow
Atmospheric Science Program, Department of Geography
Indiana University, Bloomington, Indiana |
| 1996-1999 | Lecturer, M.S. thesis advisor, Teaching Assistant
Department of Geography
University of Canterbury, Christchurch, New Zealand |

Honors and Awards

- 2013, 2018 Water Research and Policy Initiatives research award
2005, 2009 San Francisco State University President's Sabbatical Award
2002, 2006 San Francisco State University Vice President's Assigned Time Award
1997 New Zealand Royal Society Ph.D. Scholarship (3 years)
1995 University of Canterbury, Centre for Atmospheric Research, Graduate Climate Research Award

Professional Service

Editorial board: 2005- *Geography Compass*

Panel Member: 2009- American Geophysical Union expert panelist for journalist questions during United Nations Climate Change Conference Copenhagen 2009 and beyond

2003-2007 World Meteorological Organization, oversight of rewriting of WMO's *Guide to Agricultural Meteorological Practices*

Journal Reviewer: *Atmospheric Chemistry and Physics Discussions, Agriculture and Forest Meteorology, Bulletin of the American Meteorological Society, Physical Geography, Journal of Geophysical Research – Atmospheres, International Journal of Biometeorology, Monthly Weather Review, Meteorologische Zeitschrift, Geophysical Research Letters, Journal of Applied Meteorology, Tellus-B, International Journal of Climatology, Progress in Physical Geography*

Proposal Reviewer: Canadian National Research Council, National Science Foundation Polar Program, US Department of State, Science Centers Program. NSF Biogeosciences

Session Chair: AAG 2018, Association of American Geographers 106th Annual Meeting, 5287: Interactions with the Environment, April 2011.

Association of American Geographers 102nd Annual Meeting, 1508: Surface-Atmosphere Interactions, April 2007. Also co-field trip convener.

Association of American Geographers 99th Annual Meeting, Session 7239: Environment: Scientific Perspectives, New Orleans, March 2003.

American Geophysical Union Fall Conference, Session B51A: Water, Energy and Carbon Cycles in Terrestrial Systems: Local-Scale Observations Through FLUXNET and Other Micrometeorological Tower Sites, San Francisco, December, 2001.

Judge: *Association of American Geographers Climate Specialty Group Student Paper Presentation Competition, 99th Annual Meeting, New Orleans, March 2003.*

Invited Speaker:

University of Utah, Dept. of Atmospheric Sciences. April 2017. Micrometeorological impacts of an ephemeral desert city: The Burning Man experiment.

Romberg Tiburon Center, Tiburon, California, April 2017, Climate Change in California: Regional predictions and future urban climates.

San Francisco State University, Dept. of Geography & Environment, San Francisco, California, November 2016, Micrometeorology of an ephemeral city, the Burning Man Experiment.

Exploratorium, San Francisco, Oct 24th, 2013, Bay Area Science Festival: Turbulence in the City.

Exploratorium, San Francisco, Oct 3rd, 2013, After Dark Program: Fog and the microclimates of San Francisco.

Romberg Tiburon Center, California, May 2013, Observations of surface-atmosphere interactions using the CSU-MAPS, a mobile atmospheric profiling system.

San Francisco State University, Department of Geosciences, San Francisco, California, March 2013: Observations of the surface energy balance from the Dry Valleys, Antarctica to central Iran.

Romberg Tiburon Center, Climate Change Workshop, Tiburon, California, May 2012, Climate Science on a Global Level.

San Francisco State University, Department of Geosciences, San Francisco, California, October 2010: Impact of changing sky conditions on light regimes and photosynthesis by terrestrial ecosystems.

Waikato University, Department of Earth and Oceanic Sciences, Hamilton, New Zealand, March 2010: On clouds, aerosols and carbon sequestration by terrestrial ecosystems.

Auckland University, School of Environmental Science, Auckland, New Zealand, March 2010: The role of diffuse light on carbon sequestration by terrestrial ecosystems.

Institute for Meteorology and Climatology, Karlsruhe Institute of Technology, Garmisch-Partenkirchen, Germany, November 2009: The role of diffuse light on gross primary production of terrestrial ecosystems.

French National Institute for Agricultural Research, Bordeaux, France, October 2009: The role of diffuse light on gross primary production of terrestrial ecosystems.

Geography Forum, San Francisco State University, April 2009: Global carbon responses to changes in quantity and quality of light.

Department of Biology, San Francisco State University, March 2009: The role of clouds and aerosols on carbon sequestration by terrestrial ecosystems.

Focus the Nation national teach-in, San Francisco State University, January 2008: Climate Change Science, an IPCC update.

Gateway Antarctica, University of Canterbury, December 2005: Antarctic Climate Change.

Gateway Antarctica, University of Canterbury, September 2005: Antarctic Micrometeorology.

British Antarctic Survey, Cambridge, England, July 2005: Mass and energy fluxes through of ice-cored till in the Dry Valleys, Antarctica

New Zealand Meteorological Society, Christchurch, New Zealand, August 2004: The role of clouds in carbon sequestration by terrestrial ecosystems: a Gaia effect?

University of California, Davis, Department of Land, Air and water resources, Davis, California, June 2004: Estimation of the storage heat flux and energy balance of a temperate deciduous forest.

Moss Landing Marine Laboratories, California State University, Moss Landing, California, April, 2004: Micrometeorological measurements of ecosystem-atmosphere exchange of CO₂, water vapor and energy.

Romberg Tiburon Center for Environmental Studies, San Francisco State University, November 2003: Eddy covariance measurements of ecosystem-atmosphere flux of CO₂ and energy.

Indiana University, Department of Geography, Bloomington, Indiana, October 2000: Spatial variability in surface energy exchanges in an alpine watershed.

New Zealand Meteorological Society, Christchurch, New Zealand, August 1999: Mapping surface energy balances in an alpine watershed.

Department of Energy, Pacific Northwest National Laboratory, Richland, Washington, May 1997:
Links between sea- breezes and thunderstorms over a tropical island.
New Zealand Meteorological Society, Christchurch, New Zealand, November 1996: Structure and
evolution of tropical thunderstorms.

Membership in Professional Societies:

- American Association of Geographers
- American Geophysical Union
- American Meteorological Society
- New Zealand Meteorological Society

University Service

2011- Infrastructure Committee, College of Science and Engineering
2010 External adviser, SFSU University Climate Action Plan
2008 Research Committee, College of Behavioral and Social Sciences, SFSU
2007-2008 SFSU International Programs, panelist for selecting US exchange student candidates
and panelist for orientation program for foreign exchange students
2007-2008 Steering Committee, Focus the Nation national Climate Change teach-in, San
Francisco State University. Also panelist, moderator and leader of student group to
develop SFSU carbon footprint calculator and informational poster
2007- Retention, Tenure and Promotion committee, Department of Geography and Human
Environmental Studies, SFSU, chair of committee (2010/11)
2006- Graduate Advisor, Department of Geography and Human Environmental Studies,
SFSU
2004- Graduate Committee, Department of Geography and Human Environmental Studies,
SFSU
2004-2006 Chair, Graduate Literacy Committee, Department of Geography and Human
Environmental Studies, SFSU
2004-2005 Environmental Studies Program, Earth Systems Science curriculum review
2003-2004 Curriculum Committee, Department of Geography and Human Environmental
Studies, SFSU
2003 (Nov) Romberg Tiburon Center for Environmental Studies, invited research seminar
2003-2006 Undergraduate Advisor, Department of Geography and Human Environmental
Studies, SFSU
2002-2006 Chair, Faculty-Student Consultative Committee, Department of Geography and
Human Environmental Studies, SFSU
2002-2003 Search Committees for three faculty positions, Department of Geography and Human
Environmental Studies, SFSU
2002 (Oct) Environmental Studies Program, invited seminar on Climate Change

Community Service

2013- Annual guest speaker in Advanced Placement Environmental Science classes
Gateway High School.
2011- Science advisor: Exploratorium Science Museum, San Francisco

- 2010 Guest speaker: Benjamin Franklin Intermediate School, Daly City: The science of human-climate interaction in Shackleton's Antarctic journeys.
- 2010 Guest on Hamilton Community Radio show, Hamilton, New Zealand: "Environment Matters"
- 2009- Expert analysis for media outreach program developed by American Geophysical Union during and following Copenhagen Climate Change Conference, December 2009.
- 2005 Provided atmospheric measurement workshop and field measurement program for high school science outreach program (SFROCKS, Geosciences, SFSU), July 2005
- 2005 - Provided expertise for meteorological monitoring station development for San Francisco Bay National Estuarine Research Reserve, Rush Ranch wetland site
- 2004 - Provided expertise for meteorological monitoring station development and maintenance for *CiCoR* marine monitoring program over San Francisco Bay at Romberg Tiburon Center, SFSU
- 2003 -2004 Automated meteorological station construction and maintenance for high school science outreach program *SFRocks*, (Geosciences, SFSU)
- 2001, 2002 Coordinator, Indiana State Science Olympiad, Dynamic Planet Event
- 2001 Panel member, Earth Day 2001 Global Warming forum hosted by InPIRG, Indiana University
- 2001 Mentor, REHSS (Research Exploration for High School Students), Indiana University

Research

Research Funding

- 2013-2016 NSF OCE: Investigations on the Cycling of Mercury from the Ocean to Fog and Deposition to Land in Coastal California, sub-award for UCSC, \$23,100.
- 2013-2014 San Francisco State University Office of Research and Sponsored Programs (sole PI): *Burning Man Project*.
- 2012-2013 NASA SBIR Phase II Proposal (S1.08)- Mobile Greenhouse Gas Flux Analyzer for Unmanned Aerial Systems subcontract for Los Gatos Research, \$50,583
- 2010- 2012 NSF-Major Research Instrumentation (PI): Collaborative Research MRI: Acquisition of a Mobile Atmospheric Profiling System for Multi-Campus Research and Education (CSU-MAPS) \$865,379.
- 2010-2011 San Francisco State University Office of Research and Sponsored Programs (sole PI): *Field-based experimental research on atmospheric cold pool*. \$14,840.
- 2009 – 2012 NSF-Geography and Spatial Sciences (sole PI): *Global ecosystem response to changing light environments and the implications for climate feedback*, \$148,739.
- 2008 California State University Summer Stipend Program (sole PI): *Desert climate studies in Iran*, \$6,000.
- 2005 University of Canterbury, Research Enterprise Grant (PI): *Micrometeorological fieldwork in Yazd, Iran* (\$10,000)

- 2003 California State University Summer Stipend Program (sole PI): *Air Pollution Transport in California's Central Valley*, \$6000.
- 2002 California State University Mini-Grant Program: *Radiation and Forest Ecosystem Dynamics*, \$4,500
- 2001 Department of Energy, National Institute for Global Environmental Change, with Schmid, H.P., Grimmond, C.S.B., Su, H-B. (PIs) *Forest-Atmosphere Exchange of CO₂ over a Mixed Hardwood Ecosystem in the Midwest*, renewal 1 yr, \$301,458.

Teaching

Undergraduate courses taught: Geog101: The Physical Environment, Geog314: Bioclimatology, Geog314: Boundary Layer Climates, Geog313: Earth's Climate System, Geog402: The Climatic Challenge, Geog602: Field Methods in Physical Geography, Geog690: Proseminar in Geography, Metr470: Meteorological and Oceanic Observation and Monitoring Systems, Geog500: Physical and human dimensions of climate change.

Graduate courses taught: Geog810: Graduate seminar in Climatology, Geog702: Field Methods in Physical Geography, Geog896 Special Topics.

Graduate thesis supervision:

(1) Completed theses as principal adviser:

Darren Blackburn (2017): Investigations of Carbon and Water Fluxes in a Sierra Nevada Meadow

Christa Meier (2016): *Investigations of ecosystem CO₂ exchanges on a living roof, San Francisco, California*

Suzanne Maher (2015): *Bio-micrometeorology of a Sierra Nevada montane meadow*

Pamela van der Leeden (2015): *Variability in sea surface temperature over the Cordell Bank area*

Siobhan Lavendar (2015): *Estimates of surface carbon, water and energy budgets on a living roof*

Garrett Bradford (2014): *Investigations of surface roughness length modification in Black Rock City, NV*
Stephanie Cowles (2013): *Investigations of the Park Cool Island Effect in Golden Gate Park, San Francisco.*
Carlos Jennings (2013): *Using MODIS AOD to detect surface concentrations of pm2.5 in the Bay Area*
Joshua Schnabel (2007): *Mapping toxic air pollution concentrations at the community scale*
Charles Brigham (2006): *Structure and dynamics of spatial rainfall patterns in San Francisco, California.*

(2) In progress theses as principal adviser:

Charles Swanson: *A predictive model for aeolian erosion in the southern San Joaquin Valley, California*
Will Rose: *Atmospheric scattering and light transmission in a deciduous forest canopy*
Heba Petursson: *Assessing wind energy potential in Iceland*

(3) Completed theses as second adviser:

Michelle Slocomb (2013): *Stream channel development in restored Sierra Nevada meadows*
Marilyn Hope-Smulyan (2012): *An assessment of step-pool urban stream restoration: San Pedro Creek, Pacifica, California*
Jeanne Depman (2009): *Examining an urban water source: groundwater characteristics of San Francisco's lobos creek*
Ingrid Overguard (2009): *From empty space to global commons: Perception and mitigation of ocean noise pollution*
Noah Wasserman (2009): *Vegetation change trends in Yosemite National Park over the last century (1903-2008)*
Arnold Thompson (2007): *Hydrogeomorphic differences beneath Eucalyptus and Californian Oak trees*
Jim Pettigrew (2005): *Removal and nutrient analysis of invasive green crabs in Tomales Bay, California*
Stephanie Simms (2004): *Sediment source analysis for the San Pedro Creek Watershed, California*
Suzy Jones (2003) *Current uses of Lake Merced, San Francisco California*

(4) In progress theses as second adviser:

Marco Palmeri: *A spatial model of electricity grid susceptibility to major storms on the east coast of the US.*
